# Cirrhosis Patient Survival Prediction

Chen Liang, Jessie Li, Xinyi Shang, Ixtaccihuatl Obregon, Jane Ma

## Background

### Cirrhosis Overview

### Related research

### Study Objective

## Methods

### Dataset Description

- Data source, variables, and measures
- Missing data

### Survival Analysis

- Kaplan-Meier Estimates
- Log-Rank Test
- Cox PH (Feature selection, model assumptions, model evaluation)

# Results

Descriptive Statistics (EDA)

Kaplan-Meier Estimates

Cox Model (Feature selection, model assumptions, model evaluation)

# Interpretation/Discussion

# Conclusion
