Cirrhosis Patient Survival Prediction

Chen Liang, Jessie Li, Xinyi Shang, Ixtaccihuatl Obregon, Jane Ma

Background

Cirrhosis Overview

Related research

Study Objective

Methods

Dataset Description

- Data source, variables, and measures
- Missing data

Survival Analysis

Kaplan-Meier Estimates

Log-Rank Test

Cox PH

(Feature selection, model assumptions, model evaluation)

Results

Descriptive Statistics (EDA)

KM and Log-Rank Test

Cox Model

(Feature selection, model assumptions, model evaluation)

Interpretation/Discussion

Conclusion
